

CMG-HOSTED PUBLIC LECTURE

Effective Science Communication

Friday, December 11, 2009

2:00 p.m.

1205 Natural Sciences Building

Audrey M. Huang, M.A., Ph.D.

**Director, Basic Science Research Communications
Johns Hopkins University School of Medicine**

Dr. Huang has a PhD in genetics and an MA in Scientific Writing. She is ideally suited to discuss the challenges of good scientific communication, in writing, in media and in person. As Director of Basic Science Research Communications at Johns Hopkins, she deals with innumerable daily issues of communicating science to the public, between administrators and scientists, and among scientists. Dr. Huang has a lot to offer the science student, the working scientist, and anyone else interested in this critical aspect of our endeavor.
